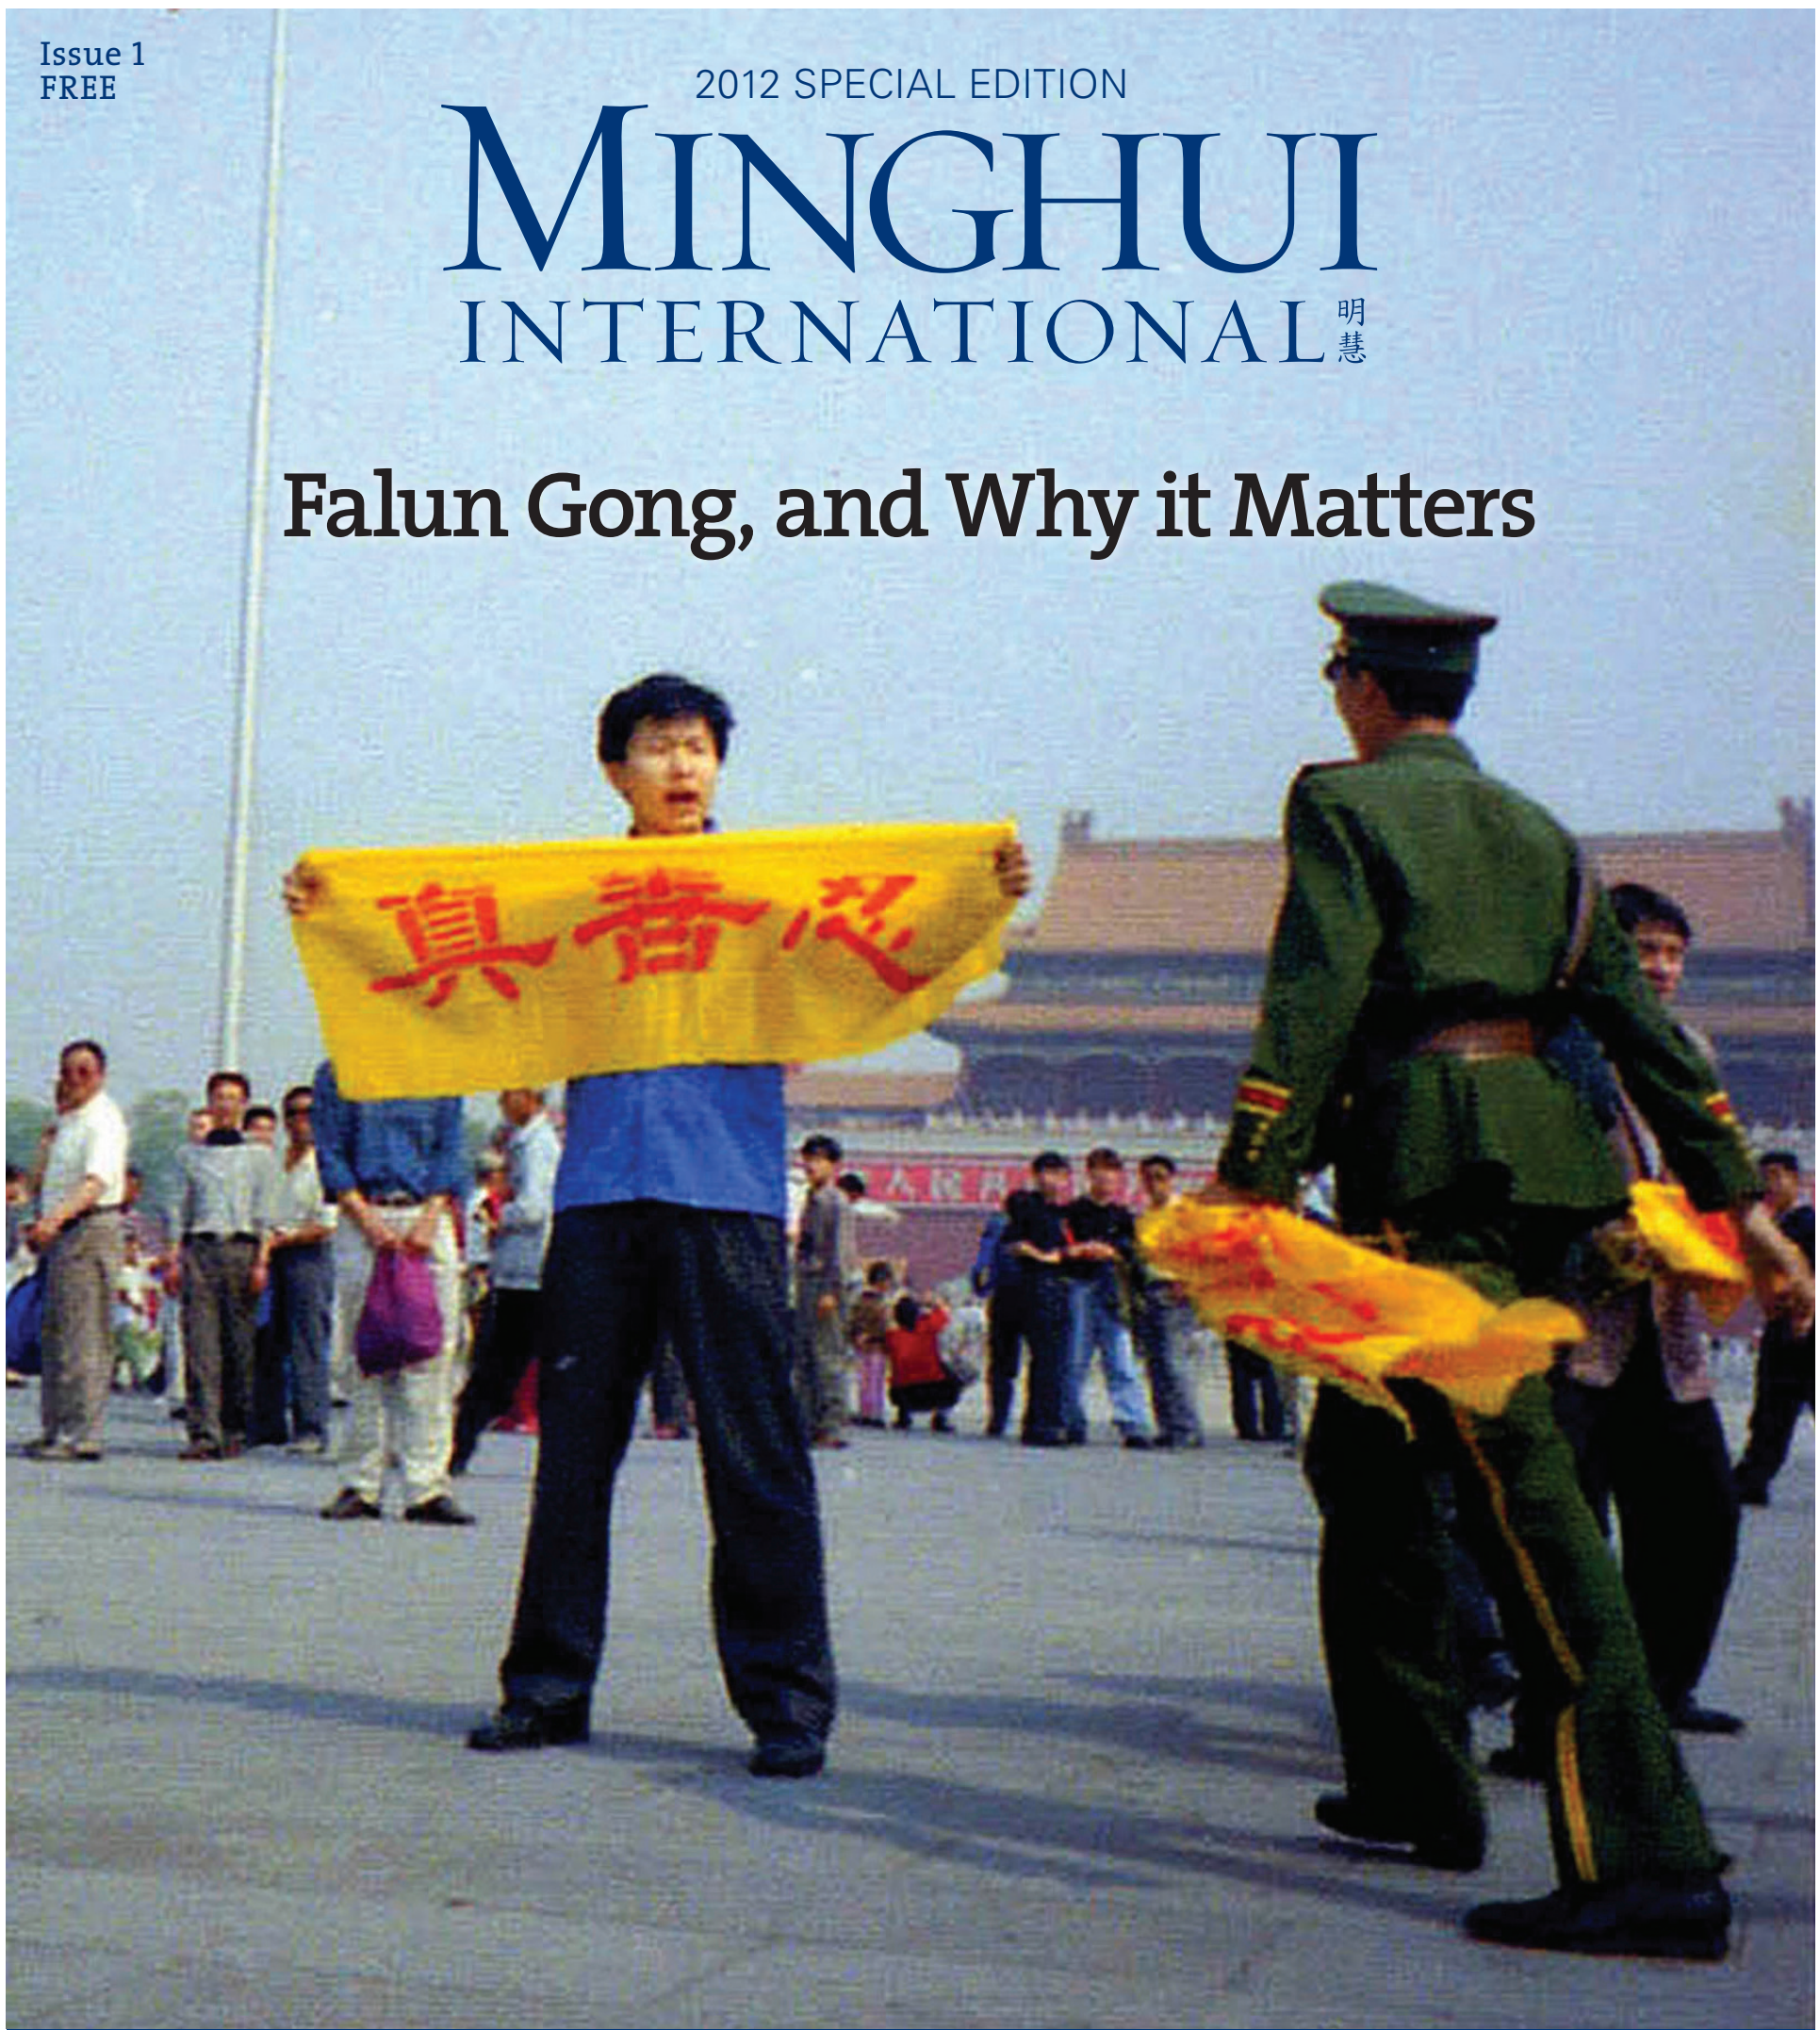
Falun Gong, and Why it Matters



Making Sense of Today's China

Ask a China watcher what the five most critical factors to understanding China are and you will hear a range of responses. Economic growth. Rampant corruption. The gap between rich and poor. Communist Party infighting. And so on.

But in most cases, something will be missing from the analysis. Something big—100 million people. Something that, once understood, can fundamentally change how we think about China and, as importantly, how we engage with it.

That something is Falun Gong.
