法輪大法在台灣 大法傳遍寶島

Falun Dafa in Taiwan

While the Jiang Zemin regime's brutal persecution of Falun Dafa is going on in mainland China, Falun Dafa is quickly spreading in Taiwan. During a short period of two years, the number of practitioners grew from 5,000 to 100,000. People in Taiwan warmly welcome this genuine practice. Why is Falun Gong being treated so differently in these two places that share the same Chinese tradition and culture?
